

Digitalis offers flexible leasing and lease to own programs. For example:

Give your students the power and excitement of a Digitalarium!

Digitalarium Zeta Portable system and 5m Digitalis inflatable dome.

A complete digital portable planetarium system from just:

\$1,148 per month*
(36 monthly lease payments)

OR

\$13,322 per year*
(Three annual lease payments - K12/SLED)

Benefits of Leasing:

- Use less budget dollars, get the best solution for your school and students.
- Recognize better ROI, cash flow, and meet other economic goals/requirements.
- Reduce total cost of ownership - some industry sources estimate that TCO has tripled over the past ten years, because equipment is kept beyond its useful life. Maximize the life, lower the TCO with a lease.
- Flexible payment options - annual, monthly, quarterly, semi-annual, and other lease payment frequencies can be arranged to best match your cash flow requirements.
- Conserve capital - Most leases simply require the rental payments, and a documentation fee. This is often cheaper than the bank's requirements for a down payment and compensating balances.
- Special tax incentives may be available for leasing - ask your tax accountant for more details.
- Finance 100% of the Project: equipment/hardware, software, implementation, training, maintenance, and other costs, can be easily bundled into the lease. Incidental costs (sales tax, filing fees, etc.) can be bundled or paid upfront.
- Eliminate end-of-useful-life hassles - Return/Refresh options allow you to remove the headaches and even most of the costs associated with disposal of the assets.
- FREE Consultation with our Leasing Team - to customize the best lease to meet your needs.

* Lease payments are based on a \$1 out Municipal lease transaction. Rates, terms, and conditions of offer are subject to change based on client's credit, location, time in business, total deal size, terms of the contract, and available market rates on the day of funding. Based on the actual contract to be provided at time of funding, customer may have the option to return/refresh/repeat a lease for new equipment with 3:17 Consulting and/or its assignees. Other lease options and terms are available and not all lease options are available to all customers. Upon client approval, payments will be sent directly from 3:17 Consulting and/or its assignees to the vendor providing the equipment.
